

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO.

ENRIQUE ALVEAR,

Plaintiff,

vs.

**MAJOR FOOD GROUP LLC,
d/b/a CARBONE, a foreign limited liability
company,**

Defendant.

COMPLAINT

Plaintiff ENRIQUE ALVEAR, through undersigned counsel, sues Defendant MAJOR FOOD GROUP LLC, d/b/a CARBONE, a foreign limited liability company, and alleges as follows:

1. This is an action for declaratory and injunctive relief, attorney's fees, costs, and litigation expenses for unlawful disability discrimination in violation of Title III of the Americans with Disabilities Act, 42 U.S.C. §§12181-12189 ("ADA"), as amended, and 28 C.F.R. Part 36. This is also an action for declaratory and injunctive relief to prevent the continuing act of trespass against the Plaintiff's personal property (his personal computer and its hard drive), and for compensatory damages to Plaintiff for such trespass. Remedies provided under common law for trespass are not exclusive and may be sought in connection with suits brought under the ADA.

2. This Court has jurisdiction over this case based on federal question jurisdiction, 28 U.S.C. §1331 and the provisions of the ADA. Plaintiff seeks declaratory and injunctive relief

pursuant to 28 U.S.C. §§2201 and 2202. In addition, this Court has supplementary jurisdiction over Plaintiff's common law tort claim pursuant to 28 U.S.C. §1367.

3. Venue is proper in this Court as all actions complained of herein and injuries and damages suffered occurred in the Southern District of Florida.

4. Plaintiff ENRIQUE ALVEAR is a resident of Miami-Dade County, Florida, is *sui juris*, and is disabled as defined by the ADA and ADA Amendments Act of 2008, 42 U.S.C. §12101 ("ADAAA").

5. Plaintiff is and at all relevant times has been a blind and visually disabled person who has been medically diagnosed with "complete blindness" as a result of retinal detachment to both eyes. Because of this condition, Plaintiff is blind and is substantially limited in performing one or more major life activities, including, but not limited to, sight, accurately visualizing his world, and adequately traversing obstacles. As such, he is a member of a protected class under the ADA, 42 U.S.C. §12102(1)-(2), the regulations implementing the ADA set forth at 28 CFR §§36.101, *et seq.*, and 42 U.S.C. §3602(h). Plaintiff further is an advocate of the rights of similarly situated disabled persons and is a "tester" for the purposes of asserting his civil rights and monitoring, ensuring, and determining whether places of public accommodation and/or their respective and associated websites are in compliance with the ADA and any other applicable disability laws, regulations, and ordinances.

6. Because he is blind, Plaintiff cannot use his computer without the assistance of appropriate and available auxiliary aids, screen reader software, and other technology and assistance. Screen reader software translates the visual internet into an auditory equivalent. At a rapid pace, the software reads the content of a webpage to the user. "The screen reading software uses auditory cues to allow a visually impaired user to effectively use websites. For example, when

using the visual internet, a seeing user learns that a link may be ‘clicked,’ which will bring him to another webpage, through visual cues, such as a change in the color of the text (often text is turned from black to blue). When the sighted user's cursor hovers over the link, it changes from an arrow symbol to a hand. The screen reading software uses auditory -- rather than visual -- cues to relay this same information. When a sight impaired individual reaches a link that may be ‘clicked on,’ the software reads the link to the user, and after reading the text of the link says the word ‘clickable.’...Through a series of auditory cues read aloud by the screen reader, the visually impaired user can navigate a website by listening and responding with his keyboard.” *Andrews v. Blink Art Materials, LLC*, 286 F.Supp.3d 365, 374 (E.D.N.Y. 2017).

7. Defendant is a foreign limited liability company authorized to do business and doing business in the State of Florida. Defendant owns, operates, and/or controls, either directly or through franchise agreements, five restaurants selling food and beverage products, including one of the restaurants Plaintiff intended to patronize in the near future located at 49 Collins Avenue, Miami Beach, Florida.

8. Plaintiff’s blindness limits him in the performance of major life activities, including sight, and he requires assistive technologies, auxiliary aids, and services for effective communication, including communication in connection with his use of a computer.

9. Plaintiff frequently accesses the internet. Because he is blind, to effectively communicate and comprehend information available on the internet and thereby access and comprehend websites, Plaintiff uses commercially available screen reader software to interface with the various websites.

10. At all times material hereto, Defendant was and still is an organization that owns, operates, and/or controls, either directly or through franchise agreements, five restaurants selling

food and beverage products under the name “Carbone”. Each “Carbone” restaurant is open to the public. As the owner, operator, and/or controller of these restaurants, Defendant is defined as a place of “public accommodation” within meaning of the ADA because Defendant is a private entity which owns, operates, and/or controls “a restaurant, bar, or other establishment serving food or drink,” per 42 U.S.C. §12181(7)(B) and 28 C.F.R. §36.104.

11. Because Defendant is a restaurant open to the public, each of Defendant’s physical restaurants is a place of public accommodation subject to the requirements of the ADA, 42 U.S.C. §12182, §12181(7)(B), and its implementing regulations, 28 C.F.R. Part 36.

12. Defendant also owns, controls, maintains, and/or operates an adjunct website, <https://www.carbonemiami.com> (the “Website”). One of the functions of the Website is to provide the public information on the locations of Defendant’s physical restaurants. The Website also allows users to purchase gift cards for use at the physical restaurants, which acts as a critical point of sale for Defendant’s gift cards also available for purchase in, from, and through Defendant’s physical restaurants. In addition, the Website allows the public to make reservations to dine in the physical restaurants, submit an electronic inquiry form to obtain information on booking group and/or private dining events in the physical restaurants, and sign up for an emailer to receive exclusive online offers, benefits, invitations, and discounts for use online and/or in the physical restaurants.

13. The Website also services Defendant’s physical restaurants by providing information on available products, services, tips and advice, editorials, sales campaigns, events, and other information that Defendant is interested in communicating to its customers.

14. Because the Website allows the public the ability to secure information about the locations of Defendant’s physical restaurants, view the restaurant menus, make reservations to

dine in the physical restaurants, submit an electronic inquiry form to obtain information on booking group and/or private dining events in the physical restaurants, purchase gift cards for use in the physical restaurants, and sign up for an emailer to receive exclusive online offers, benefits, invitations, and discounts for use online and/or in the physical restaurants, the Website has a nexus to, and is an extension of and gateway to, the goods, services, privileges, and advantages of Defendant's physical restaurants, which are places of public accommodation under the ADA. As an extension of and service, privilege, and advantage provided by a place of public accommodation as defined under the ADA, the Website is an extension of the services, privileges, and advantages made available to the general public by Defendant at and through its brick-and-mortar locations and businesses. Furthermore, the Website is a necessary service and privilege of Defendant's physical restaurants in that, as a critical point of sale for its gift cards and reservation making to dine in the physical restaurants, it enables users of the Website to make online purchases of gift cards that are available for purchase in, from, and through the physical restaurants as well as make reservations online to dine in the physical restaurants.

15. Because the public can, through the Website, make online reservations to dine in the physical restaurants and purchase gift cards for use in the physical restaurants, submit an electronic inquiry form to obtain information on booking group and/or private dining events in the physical restaurants, and sign up for an emailer to receive exclusive online offers, benefits, invitations, and discounts for use online and/or in the physical restaurants, the Website act as a critical point of sale and reservation booking for Defendant's physical restaurants. The Website, thus, is an extension of and gateway to the physical restaurants, which are places of public accommodation pursuant to the ADA, 42 U.S.C. §12181(7)(B). As such, the Website is a necessary service, privilege, and advantage of Defendant's brick-and-mortar restaurants that must

comply with all requirements of the ADA, must not discriminate against individuals with visual disabilities, and must not deny those individuals the same full and equal access to and enjoyment of the goods, services, privileges, and advantages afforded the non-visually disabled public both online and in the physical restaurants.

16. At all times material hereto, Defendant was and still is an organization owning, operating, and/or controlling the Website. Since the Website is open to the public through the internet, by this nexus the Website is an intangible service, privilege, and advantage of Defendant's brick-and-mortar restaurants that must comply with all requirements of the ADA, must not discriminate against individuals with visual disabilities, and must not deny those individuals the same full and equal access to and enjoyment of the goods, services, privileges, and advantages as afforded the non-visually disabled public both online and in the physical restaurants. As such, Defendant has subjected itself and the Website to the requirements of the ADA.

17. Plaintiff is and/or has been a customer who is interested in patronizing, and intends to patronize in the near future once the Website's access barriers are removed or remedied, Defendant's physical restaurant located in Miami Beach, and to check restaurant hours and food and beverage product offerings and pricing, make reservations to dine in the physical restaurants, purchase gift cards for use in physical restaurants, and sign up for an emailer to receive exclusive online offers, benefits, invitations, and discounts for use online and/or in the physical restaurants. In the alternative, Plaintiff intends to monitor the Website in the near future as a tester to ascertain whether it has been updated to interact properly with screen reader software.

18. The opportunity to view Defendant's menu to learn about its food and beverage offerings, make reservations to dine in the physical restaurants, purchase gift cards for use in physical restaurants, and sign up for an emailer to receive exclusive online offers, benefits,

invitations, and discounts for use online and/or in the physical restaurants from his home are important and necessary accommodations for Plaintiff because traveling outside of his home as a blind individual is often a difficult, hazardous, frightening, frustrating, and confusing experience. Defendant has not provided its business information in any other digital format that is accessible for use by blind and visually disabled individuals using screen reader software.

19. Like many consumers, Plaintiff accesses a number of websites at a time to help plan his restaurant visits and to compare food and beverage products, prices, services, sales, discounts, and promotions. Plaintiff may look at several dozen websites to compare features, discounts, services, promotions, and prices.

20. Beginning in January, 2024, Plaintiff attempted on a number of occasions to utilize the Website to browse through the food and beverage product and online offerings to educate himself as to the food and beverage products, sales, services, discounts, and promotions being offered, learn about the brick-and-mortar restaurants, check restaurant hours, book a reservations to dine in the physical restaurant located in Miami Beach, and check gift card offerings with the intent to make a purchase through the Website or in, from, and through the physical restaurant located in Miami Beach. Plaintiff also attempted to access and utilize the Website in his capacity as a tester to determine whether it was accessible to blind and visually disabled persons such as himself who use screen reader software to access and navigate company websites.

21. Plaintiff utilizes available screen reader software that allows individuals who are blind and visually disabled to communicate with websites. However, Defendant's Website contains access barriers that prevent free and full use by blind and visually disabled individuals using keyboards and available screen reader software. These access barriers, one or more of which were experienced by Plaintiff. are pervasive and, as confirmed by Plaintiff's expert, include the

following (with reference to the Web Content Accessibility Guidelines (“WCAG”) 2.1 Level A and AA):

a) Level A 1.3.2 – Meaningful Sequence (Content is presented in a meaningful order.)
– Unannounced content in the “Pesci” section of the Easter menu; after the Pesci heading was announced, focus skipped to the “Carni” section. Any attempt to move from this resulted in focus always skipping over the items in the “Pesci” section.

b) Level A Guideline 2.4.1 – Bypass Blocks – An unannounced “Skip to Content” link on the Website that was also not displayed; the first item announced on the home page – for example – was the unlabeled “Menus” header link.

c) Level A Guideline 2.4.3 – Focus Order (Website provides focus in a logical order that preserves meaning and operability.) – An unannounced “Easter at Carbone Miami – Join Us” popup that also did not have focus shift to it when it was displayed; focus instead moved to the underlying home page and it was that content there which was announced.

d) Level A Guideline 2.4.4 – Link Purpose (In Context) (Link purpose is clear from its context.) – The announcement of both the “Dinner” and “Wine & Cocktail” menu links on the Menu webpage as “Menu Item”; the other header elements on this page were also all generically labeled and announced as “menu item” as opposed to being labeled and announced as what they specifically refer to.

e) Level A Guideline 3.3.1 – Error Identification (Input errors are clearly identified.)
– Unannounced error messages; after selecting the “submit” button on the contact form, “dimmed” was announced and the page automatically scrolled to the top where multiple error messages were displayed but not announced. The screen reader user, thus, did not hear that any errors were present or that the contact form was not submitted.

f) Level A Guideline 3.3.2 – Labels or Instructions (Elements are labeled and give instructions.) – An unlabeled “events” menu item in the header; it was announced as “menu item end navigation”. Additionally, the “Gift Cards” and “Press” menu items were generically labeled and announced as “menu item”.

g) Level A Guideline 4.1.2 – Name, Role, Value (All interactive elements are announced with a clear name, role and value.) – Unlabeled “Contact” and “About” menu items; each was announced only as “menu item”.

h) Level A Guideline 4.1.2 – Name, Role, Value (2) (All interactive elements are announced with a clear name, role and value.) – An unlabeled “Menus” menu item in the header; it was announced as “menu item end navigation”. Additionally, the “Email Signup” menu item was announced only as “menu item”.

22. Plaintiff attempted to locate an “accessibility” notice, statement, or policy on the Website that would direct him to a webpage with contact information for disabled individuals who have questions or concerns about, or who are having difficulties accessing, navigating, and/or communicating with, the Website. However, Plaintiff was unable to do so because no such link or notice, statement, or policy existed on the Website.

23. The fact that Plaintiff could not communicate with or within the Website left him feeling excluded, as he is unable to participate in the same dining experience, with the same access to the gift cards and reservation booking options, sales, services, discounts, and promotions, as provided at the Website and in the physical restaurants as the non-visually disabled public.

24. Plaintiff desires and intends in the near future once the Website’s access barriers are removed or remedied to patronize Defendant’s physical restaurant located in Miami Beach and to use the Website, but he is presently unable to do so as he is unable to effectively communicate

with Defendant due to his blindness and the Website's access barriers. Alternatively, as a tester using screen reader software, Plaintiff is unable to effectively access, navigate, and communicate with Defendant through the Website due to his blindness and the Website's access barriers. Thus, Plaintiff and others who are blind and with visual disabilities will suffer continuous and ongoing harm from Defendant's intentional acts, omissions, policies, and practices as set forth herein unless properly enjoined by this Court.

25. Because of the nexus between Defendant's physical restaurants and the Website, and the fact that the Website clearly provides support for and is connected to Defendant's physical restaurants for its operation and use, the Website is an intangible service, privilege, and advantage of Defendant's brick-and-mortar restaurants that must comply with all requirements of the ADA, must not discriminate against individuals with disabilities, and must not deny those individuals the same full and equal access to and enjoyment of the goods, services, privileges, and advantages as afforded the non-visually disabled public both online and in the physical restaurants, which are places of public accommodation subject to the requirements of the ADA.

26. On information and belief, Defendant has not initiated a Web Accessibility Policy to ensure full and equal use of the Website by individuals with disabilities.

27. On information and belief, Defendant has not instituted a Web Accessibility Committee to ensure full and equal use of Website by individuals with disabilities.

28. On information and belief, Defendant has not designated an employee as a Web Accessibility Coordinator to ensure full and equal use of the Website by individuals with disabilities.

29. On information and belief, Defendant has not instituted a Web Accessibility User Accessibility Testing Group to ensure full and equal use of the Website by individuals with disabilities.

30. On information and belief, Defendant has not instituted a User Accessibility Testing Group to ensure full and equal use of the Website by individuals with disabilities.

31. On information and belief, Defendant has not instituted a Bug Fix Priority Policy.

32. On information and belief, Defendant has not instituted an Automated Web Accessibility Testing program.

33. Defendant has not created and instituted a useful and effective Specialized Customer Assistance line or service or email contact mode for customer assistance for the visually disabled.

34. Defendant has not created and instituted on the Website a useful and effective page for individuals with disabilities, nor displayed a proper link and information hotline, nor created a proper information portal explaining when and how Defendant will have the Website, applications, and digital assets accessible to the visually disabled and/or blind communities.

35. The Website does not meet the Web Content Accessibility Guidelines (“WCAG”) 2.0 Level AA or higher versions of web accessibility.

36. Defendant has not disclosed to the public any intended audits, changes, or lawsuits to correct the inaccessibility of the Website to visually disabled individuals who want the safety and privacy of making reservations to dine in the physical restaurants and purchasing Defendant’s gift cards offered on the Website and in the physical restaurants from their homes.

37. Defendant thus has not provided full and equal access to, and enjoyment of, the goods, services, facilities, privileges, advantages, and accommodations provided by and through the Website and the physical restaurants in contravention of the ADA.

38. Public accommodations under the ADA must ensure that their places of public accommodation provide effective communication for all members of the general public, including individuals with visual disabilities such as Plaintiff.

39. The broad mandate of the ADA is to provide an equal opportunity for individuals with disabilities to participate in and benefit from all aspects of American civic and economic life. That mandate extends to internet e-commerce websites such as the Website at issue in the instant action.

40. Defendant is, and at all relevant times has been, aware of the barriers to effective communication within the Website which prevent individuals with visual disabilities from the means to comprehend information presented therein.

41. Defendant is, and at all relevant times has been, aware of the need to provide full and equal access to all visitors to the Website.

42. The barriers that exist on the Website result in discriminatory and unequal treatment of individuals with visual disabilities, including Plaintiff.

43. Plaintiff has no plain, adequate, or complete remedy at law to redress the wrongs alleged hereinabove, and this suit for declaratory judgment and injunctive relief is his only means to secure adequate and complete redress from Defendant's unlawful and discriminatory practices in connection with the Website's access and operation.

44. Notice to Defendant is not required because of Defendant's failure to cure the violations.

45. Enforcement of Plaintiff's rights under the ADA is right and just pursuant to 28 U.S.C. §§2201 and 2202.

46. Plaintiff has retained the undersigned attorneys to represent him in this case and has agreed to pay them a reasonable fee for their services.

Trespass Violations

47. Plaintiff utilizes his computer to access websites such as the Website.

48. Plaintiff uses his computer as a method of conveyance of his personal information. Plaintiff thus stores his personal information and retains his browsing history on his computer.

49. When a user accesses the Website, Defendant places information tracking and gathering software on the user's personal computer and hard drive without the user's advance consent or knowledge. Defendant also plants browser cookies on a user's computer and hard drive to identify websites that the user has previously visited by accessing the user's web browser history.

50. Although the Website does have a "Privacy Policy" linked from its home page, Defendant does not inform the Website user that the user's personal information and browsing history are being collected and used for targeted marketing and advertising. Therefore, and because of his blindness, Plaintiff was unable to comprehend the Website and thus had no choice, and likewise no knowledge, of Defendant's installation of data and information tracking and gathering software on his computer and the collection of Plaintiff's browsing history and analytics.

51. Thus, through the Website, Defendant has committed a trespass against Plaintiff, since the Website places information tracking and gathering software on the Plaintiff's computer without Plaintiff's knowledge or consent.

COUNT I – VIOLATION OF THE ADA

52. Plaintiff re-alleges paragraphs 1 through 46 as if set forth fully herein.

53. Pursuant to 42 U.S.C. §12181(7)(B), Defendant is a public accommodation under the ADA and thus is subject to the ADA.

54. Pursuant to 42 U.S.C. §12181(7)(B), the Website is covered under the ADA because it provides the general public with the ability to locate and learn about Defendant's restaurants and menu items, make reservations to dine in the physical restaurants, purchase gift cards for use in physical restaurants that are also available for purchase in, from, and through the physical restaurants, submit an electronic inquiry form to obtain information on booking group and/or private events in the physical restaurants, and sign up for an emailer to receive exclusive online offers, benefits, invitations, and discounts for use online and/or in the physical restaurants. The Website thus is an extension of, gateway to, and intangible service, privilege, and advantage of Defendant's physical restaurants. Further, the Website serves to augment Defendant's physical restaurants by providing the public information about the restaurants and by educating the public as to Defendant's available gift cards sold through the Website and in, from, and through the physical restaurants.

55. Under Title III of the ADA, 42 U.S.C. §12182(b)(1)(A)(II), it is unlawful discrimination to deny individuals with disabilities or a class of individuals with disabilities an opportunity to participate in or benefit from the goods, services, facilities, privileges, advantages, or accommodation, which is equal to the opportunities afforded to other individuals.

56. Specifically, under Title III of the ADA, 42 U.S.C. §12182(b)(2)(A)(II), unlawful discrimination includes, among other things, "a failure to make reasonable modifications in policies, practices, or procedures, when such modifications are necessary to afford such goods, services, facilities, privileges, advantages, or accommodations to individuals with disabilities,

unless the entity can demonstrate that making such modifications would fundamentally alter the nature of such goods, services, facilities, privileges, advantages or accommodations.”

57. In addition, under Title III of the ADA, 42 U.S.C. §12182(b)(2)(A)(III), unlawful discrimination includes, among other things, “a failure to take such steps, as may be necessary to ensure that no individual with a disability is excluded, denied services, segregated or otherwise treated differently than other individuals because of the absence of auxiliary aids and services, unless the entity can demonstrate that taking such steps would fundamentally alter the nature of the good, service, facility, privilege, advantage, or accommodation being offered or would result in an undue burden.”

58. Defendant’s Website must comply with the ADA, but it does not as specifically alleged hereinabove and below.

59. Because of the inaccessibility of the Website, individuals with visual disabilities are denied full and equal access to and enjoyment of the goods, information, and services that Defendant has made available to the public on the Website and in the physical restaurants in violation of 42 U.S.C. §12101, *et seq.*, and as prohibited by 42 U.S.C. §12182, *et seq.*

60. The Website was subsequently visited by Plaintiffs expert in March 2024 and the expert determined that many of the same access barriers that Plaintiff had initially encountered, as well as numerous additional access barriers, existed. Defendant has made insufficient material changes or improvements to the Website to enable its full and equal use, and enjoyment by, and accessibility to, blind and visually disabled persons such as Plaintiff. Defendant has not disclosed to the public any intended audits, changes, or lawsuits to correct the inaccessibility of the Website to visually disabled individuals, nor has it posted on the Website a useful and effective “accessibility” notice, statement, or policy to provide blind and visually disabled persons, such as

Plaintiff, with a viable alternative means to access and navigate the Website. Defendant thus has failed to make reasonable modifications in its policies, practices, or procedures when such modifications are necessary to afford goods, services, facilities, privileges, advantages, or accommodations to individuals with disabilities, in violation of 28 C.F.R. §36.302.

61. More violations may be present on other pages of the Website, which can and will be determined and proven through the discovery process in this case.

62. Further, the Website does not offer or include the universal symbol for the disabled that would permit disabled individuals to access the Website's accessibility information and accessibility facts.

63. There are readily available, well-established guidelines on the internet for making websites accessible to the blind and visually disabled. These guidelines have been followed by other large business entities in making their websites accessible. Examples of such guidelines include, but are not limited to, adding alt-text to graphics and ensuring that all functions can be performed using a keyboard. Incorporating such basic components to make the Website accessible would neither fundamentally alter the nature of Defendant's business nor would it result in an undue burden to Defendant.

64. Defendant has violated the ADA -- and continues to violate the ADA -- by denying access to the Website by individuals such as Plaintiff with visual disabilities who require the assistance of screen reader software to comprehend and access internet websites. These violations within the Website are ongoing.

65. The ADA requires that public accommodations and places of public accommodation ensure that communication is effective.

66. According to 28 C.F.R. §36.303(b)(1), auxiliary aids and services include “voice, text, and video-based telecommunications products and systems”. Indeed, 28 C.F.R. §36.303(b)(2) specifically states that screen reader software is an effective method of making visually delivered material available to individuals who are blind or have low vision.

67. According to 28 C.F.R. §36.303(c), public accommodations must furnish appropriate auxiliary aids and services where necessary to ensure effective communication with individuals with disabilities: “In order to be effective, auxiliary aids and services must be provided in accessible formats, in a timely manner, and in such a way as to protect the privacy and independence of the individual with a disability,” 28 C.F.R. §36.303(c)(1)(ii).

68. Part 36 of Title 28 of the C.F.R. was designed and is implemented to effectuate subtitle A of Title III of the ADA, which prohibits discrimination on the basis of disability by public accommodations, and requires places of public accommodation to be designed, constructed, and altered in compliance with the accessibility standards established by Part 36.

69. As alleged hereinabove, the Website has not been designed to interface with the widely and readily available technologies that can be used to ensure effective communication, and thus violates the ADA.

70. As a direct and proximate result of Defendant’s failure to provide an ADA compliant Website, with a nexus to its brick-and-mortar locations, Plaintiff has suffered an injury in fact by being denied full and equal access to, enjoyment of, and communication with Defendant’s Website and its physical restaurants.

71. Because of the inadequate development and administration of the Website, Plaintiff is entitled to injunctive relief pursuant to 42 U.S.C. §12133 and 28 C.F.R. §36.303, to remedy the ongoing disability discrimination.

72. Pursuant to 42 U.S.C. §12188, this Court is vested with the authority to grant Plaintiff appropriate and necessary injunctive relief, including an order to:

a) Require Defendant to adopt and implement a web accessibility policy to make publicly available, and directly link from the homepage of the Website, a functional statement of the Defendant's policy to ensure persons with disabilities have full and equal access to and enjoyment of the goods, services, facilities, privileges, advantages, and accommodations of the physical restaurants through the Website.

b) Require Defendant to take the necessary steps to make the Website readily accessible to and usable by blind and visually disabled users, and during that time period prior to the Website being made readily accessible, provide an alternative method for individuals with visual disabilities to access the information available on the Website until such time that the requisite modifications are made, and

c) Require Defendant to provide the appropriate auxiliary aids such that individuals with visual disabilities will be able to effectively communicate with the Website for purposes of viewing and locating Defendant's physical restaurants and becoming informed of and purchasing gift cards and during that time period prior to the Website being designed to permit individuals with visual disabilities to effectively communicate, to provide an alternative method for individuals with visual disabilities to effectively communicate for such goods and services made available to the general public through the Website and the physical restaurants.

73. Plaintiff is entitled to recover his reasonable attorney's fees, costs, and expenses pursuant to the ADA. To that end, Plaintiff has been obligated to retain the undersigned counsel for the filing and prosecution of this action and has agreed to pay them a reasonable fee for their services.

WHEREFORE, Plaintiff requests entry of judgment in his favor and against Defendant for the following relief:

- A. A declaration that Defendant's Website is in violation of the ADA;
- B. An Order requiring Defendant, by a date certain, to update the Website, and continue to monitor and update the Website on an ongoing basis, to remove barriers in order that individuals with visual disabilities can access, and continue to access, the Website and effectively communicate with the Website to the full extent required by Title III of the ADA;
- C. An Order requiring Defendant, by a date certain, to clearly display the universal disabled logo within the Website, wherein the logo¹ would lead to a page which would state Defendant's accessibility information, facts, policies, and accommodations. Such a clear display of the disabled logo is to ensure that individuals who are disabled are aware of the availability of the accessible features of the Website;
- D. An Order requiring Defendant, by a date certain, to provide ongoing support for web accessibility by implementing a Website accessibility coordinator, a Website application accessibility policy, and providing for Website accessibility feedback to ensure compliance thereto;
- E. An Order directing Defendant, by a date certain, to evaluate its policies, practices and procedures toward persons with disabilities, for such reasonable time to allow Defendant to undertake and complete corrective procedures to its Website;

¹  or similar.

- F. An Order directing Defendant, by a date certain, to establish a policy of web accessibility and accessibility features for the Website to ensure effective communication for individuals who are visually disabled;
- G. An Order requiring, by a date certain, that any third-party vendors who participate on Defendant's Website to be fully accessible to the visually disabled;
- H. An Order directing Defendant, by a date certain and at least once yearly thereafter, to provide mandatory web accessibility training to all employees who write or develop programs or code for, or who publish final content to, the Website on how to conform all web content and services with ADA accessibility requirements and applicable accessibility guidelines;
- I. An Order directing Defendant, by a date certain and at least once every three months thereafter, to conduct automated accessibility tests of the Website to identify any instances where the Website is no longer in conformance with the accessibility requirements of the ADA and any applicable accessibility guidelines, and further directing Defendant to send a copy of the twelve (12) quarterly reports to Plaintiff's counsel for review;
- J. An Order directing Defendant, by a date certain, to make publicly available and directly link from the Website homepage, a statement of Defendant's Accessibility Policy to ensure the persons with disabilities have full and equal enjoyment of the Website and shall accompany the public policy statement with an accessible means of submitting accessibility questions and problems;
- K. An award to Plaintiff of his reasonable attorney's fees, costs and expenses; and
- L. Such other and further relief as the Court deems just and equitable.

COUNT II – TRESPASS

74. Plaintiff re-alleges paragraphs 1 through 51 as if set forth fully herein.

75. Plaintiff's tangible personal property, being his computer and the personal information and browsing history stored therein, has suffered a trespass by Defendant on each and every date that the Plaintiff has accessed Defendant's Website, due to Defendant's employment of information tracking and gathering software and analytics which are present on and throughout the Website.

76. At all relevant times, Plaintiff did not consent to and was unaware that the Website was placing the information tracking and gathering software on his computer and its hard drive due to his blindness and his inability to effectively communicate with and fully navigate and access the Website.

77. Plaintiff did not consent to the placement of information tracking and gathering software on his computer and its hard drive; therefore, Defendant has committed a trespass against Plaintiff by placing such software on his computer and its hard drive without his knowledge or consent.

78. By the acts described hereinabove, Defendant has repeatedly and persistently engaged in trespass of Plaintiff's personal property in violation of Florida common law against trespass to chattel.

79. Defendant's installation, operation, and execution of information tracking and gathering software on Plaintiff's computer have directly and proximately impaired the condition and value of the Plaintiff's computer, thereby causing Plaintiff damages.

80. The Website has a "Privacy Policy" that discusses the automatic gathering of information from and the automatic placement of cookies and other information gathering software

on, computers of users of the Website such as Plaintiff. A copy of that “Privacy Policy” is attached hereto as Exhibit “A” and its contents are incorporated herein by reference.

81. Defendant’s trespass to chattel, nuisance, and interference has caused real and substantial damage to Plaintiff as follows:

- a) By consuming the resources of and/or degrading the performance of Plaintiff’s computer (including space, memory, processing cycles, and internet connectivity);
- b) By infringing on Plaintiff’s right to exclude others from his computer;
- c) By infringing on Plaintiff’s right to determine, as the owner of his computer, which programs should be installed and operated on his computer;
- d) By compromising the integrity, security, and ownership of Plaintiff’s computer; and
- e) By forcing Plaintiff to expend money, time, and resources in order to remove the programs that had been installed on his computer without notice or consent.

82. Defendant’s actions were taken knowingly, willfully, intentionally, and in reckless disregard for Plaintiff’s rights under the law.

WHEREFORE, Plaintiff demands a judgment be entered against Defendant for all of Plaintiff’s compensatory damages, interest, costs, and such further relief as the Court deems just and equitable.

DATED: March 21 , 2024.
